1. Creative Music Making is one of the best classes I've ever taken. I really enjoyed [it]. Since the class is based on free form improvisation it's really helped me to improvise music and hearing others more.
2. This course made me think a lot and brought me to a new chapter of next level. I haven't found any answer nor am I sure if there is an answer, but it is another challenge to figure out for me. Thanks for the wonderful class. I loved it!!
3. This class totally changed my thought about improvisation (of course in a good way).
4. I feel like my confidence improved a lot, but I wish the class was a full semester so I could grow even more!

5. Wonderful class! I'm really glad I took it.
6. This was a great experience in music making. I plan to pursue this type of performance in other recital settings.
7. I loved everything about the course and I definitely think it has made me a better musician. I only wish it were longer than 7 weeks!
8. This class was extremely enjoyable and taught me so much about playing with others as well as gaining confidence in my own playing. My only complaint – I wish it lasted all semester instead of just half.
9. I appreciate the emphasis on listening. It's such an important part of what we do as musicians, but I've never had someone explain it so clearly before.
10. I have noticed a big difference in ensemble playing! It is so much easier to listen and follow!
